### ■ Benefits

- Controlled expansion for perfect setting every time.
- No crushing of the partition.
- Light and easy to use.

### ■ Anchor Range

M4 to M6

### ■ Installation instructions

1. Drill the support to the "d<sub>cut</sub>" diameter indicated.
2. Insert the dowel flush with the hole.  
Unscrew the screw by +/- 4 mm.
3. Adjust the clamp according to the length of the ankle.

4. Insert the pliers between the head of the screw and the collar of the dowel.
5. Operate the forceps to expand the ankle.
6. Remove the screw to position the object to be fixed.  
Screw the assembly together using a screwdriver.
